Vision of Hope

Molly Burke was not born blind. She started losing her sight when she was four years old. Doctors said that she had a rare eye disease that would gradually take away her vision. In her first grade, she learned to read Braille (the language used for the blind), although she could still see.

By age 14, Molly was completely blind. What's worse, a group of girls who were once her friends started bullying her. Eventually, Molly became disappointed and depressed. Her high school years were not easy.

After she finished high school, Molly wanted to do something that would help others. Then she found out about **ME TO WE**, an organization that runs international volunteer trips and leadership camps. Molly knew what she wanted to do next - to help inspire people by being a speaker at **ME TO WE**.

Molly began speaking at schools all over the USA and Canada about bullying. Her advice? Be strong! During a speech in Toronto, she spoke to about 20,000 people. After her speech, the crowd stood up and clapped. "Molly has a real ability to inspire people and to help others," her father says.

In 2014, Molly started her own channel on social media, uploading things like makeup video blogs, or vlogs. As of 2019, she has close to two million followers, some of whom don't even know she's blind. She tries to be a role model for young people but is realistic about what she can and can't do. She even makes fun of the challenges she faces as a blind person - like sharing a video that she once bit into a lemon, thinking it was a potato.

"How can you hold somebody like that back?" says Molly's mother. "She's unstoppable".

78. Has Molly lost her sight when she started learning Braille?

79. Why were Molly's high school years not easy for her?

80. What does the organization **ME TO WE** do?

81. What's Molly's advice on how to face bullying?

82. How did Molly inspire people besides giving speeches?

83. How do you understand the title "**Vision of Hope**" according to the passage?

VII. Writing (作文) (共 20 分)

84. Write at least 60 words according to the given situation (根据以下情境写一篇不少于 60 个词的短文，标点符号不占格)
